-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's amendment filed 30 April 2009 has resulted in a re-evaluation of the Restriction Requirement mailed 24 March 2009. Based upon Applicant's amendment, the previous Restriction Requirement of 24 March 2009 is hereby vacated and the following Election of Species is now found to be applicable.

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1 – transducer supporting device with a guide surface which is a bevel undercut

Species 2 – transducer supporting device with a guide surface which is a side of a flange

Species 3 – transducer supporting device with a guide surface which is planar

Species 4 – rotational positioning of the transducer

Species 5 – pivotally positioning of the transducer

Species 6 – supporting frame which includes two or more carriages

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. The claims are deemed to correspond to the species listed above in the following manner:

Claim 5 corresponds to Species 1.
Claim 6 corresponds to Species 2.
Claim 7 corresponds to Species 3.
Claims 16-18 and 38-39 corresponds to Species 4.
Claims 19 and 50 correspond to Species 5.
Claims 42-46 and 48 correspond to Species 6.

The following claim(s) are generic: Claim 1 is generic to all species. Claims 2-4 and 8-14 are generic to species 1, 2, and 3. Claims 20-37 are generic to species 4 and 5. Claim 47 is generic to species 4 and 6.

4. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Species 2-6 lack the technical features of the guide surface of Species 1. Species 1 and 3-6 lack the technical features of the guide surface of Species 2. Species 1-2 and 4-6 lack the technical features of the guide surface of Species 3. Species 1-3 and 5-6 lack the technical features of the rotational positioning of Species 4. Species 1-4 and 6 lack the technical features of the pivotal positioning of Species 5. Species 1-5 lack the technical features of the support frame of Species 6.

5. A telephone call was made to Adam Stegee on 16 July 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROSE M. MILLER whose telephone number is (571)272-2199. The examiner can normally be reached on Monday - Friday, 8:00 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on 571-272-2208. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
